

Colours & Slat Sizes

Available in 3 slat sizes and 5 classic colours & wood stains

- ✓ Controls are assembled as tilt on left side and lift on right side and cannot be altered.
- ✓ All sizes should preferably be in metric (cm or mm) and be given as finished sizes.
- ✓ If sizes are given as 'recess' we will make a standard allowance of 1.5cm on the overall width.
- ✓ Sizes will be taken as width x drop (industry standard).
- ✓ As with all wood products, variations in grain, texture and colour, along with some slight warpage may occur. These are natural characteristics of real wood blinds. Please note that all colours shown above are for reference only and therefore an exact match cannot be guaranteed.
